

2024 ST. JOHNS COUNTY TRANSIT ADVERTISING MEDIA KIT

WHY USE TRANSIT ADVERTISING?

- **You can't zap it.**
- **You can't ignore it.**
- **It can't be turned off like television.**
- **It reaches drivers and passengers no matter what radio stations they're listening to.**
- **The large, colorful designs demand attention.**
- **You have exclusivity in your space.**

VALUE ON THE GO

HIGH VISIBILITY – CONSISTENT VIEWS – BOLD GRAPHICS

Transit advertising brings your message to our county's busiest and most high-profile locations at lower prices than traditional billboard advertising.

The US Census reports that St. Johns County is a vibrant, growing area with an ever-increasing number of residents. And these residents are on the move—they spend an average of an hour a day driving to and from work. This makes them a captive audience for relevant, high-profile messaging delivered via transit advertising.
